(a) reward scale audit: collapse is scale-driven, not shape-driven
pool survival (lifetime frac)
v2.1 (schedule, capped)
v2.2 (scale 1.0)
v2.2s (scale 0.01)
learner
random
DF-heur
pacifist
(b) value instability at scale 1.0 vs stable at 0.01
TD loss (Huber)
episode
(c) v2.2s across worlds: learner wins, pacifist still starves
survival by kind
learner
random
df
pacifist
world 10556
world 10557
world 10558
(d) the conserved-world forest persists in all v2.2 arms
starvation share of deaths
0.10
0.68
0.75
v2.1
(sched+capped)
v2.2
(scale 1.0)
v2.2s
(scale 0.01)
